# FIBERGLASS DOOR FEATURES

- A

Grain

Multiple grain options are available in fiberglass – smooth, oak, mahogany / rustic textures. Smooth fiberglass has a unique brush stroke surface that’s ideal for painting.
- B

Durability

Top and bottom rails are constructed from rot free composite material.
- C

Security

Door stiles are constructed with engineered 2” laminated strand lumber (LSL) hinge, and 4” LSL latch stiles.
- D

Panel Profile

Fiberglass doors feature distinctive and deep high definition moulded door panels.
- E

Construction

Polyurethane foam core combined with engineered wood used in stiles provide superior insulation value and structural integrity.

Features & Benefits	Smooth	Oak	Mahogany / Rustic

Clavos Option	•	•	•

Extensive style, deep panel designs, selection and grain texture options make fiberglass doors an ideal choice for any entrance. This 100% North American product mimics the grain, texture and construction of a handcrafted hardwood door. Molded fiberglass skin, and polyurethane foam core will provide superior thermal performance, strength and durability.

**Composite Rails**  
The rails are made out of rot free composite material.

**Stronger Stiles**  
LSL is engineered wood that is free of knots or inconsistencies found in other wood products. The patented manufacturing process increases product strength while resisting bowing, twisting and shrinking.

**Resource Efficient**  
LSL uses 99% aspen and 1% birch trees. Our LSL technology is independently certified to the Sustainable Forestry Initiative® (SFI) Standard and conforms to the ISO14001-2004 Environmental Management System Standard. LSL does not contain formaldehyde-based adhesives.

4” and 2” stile shown.

Clavos are hand forged from metal to create an authentic old world look that enhances the appearance of the rustic door.

# MINI-BLINDS

RAISE LOWER & TILT MINI-BLINDS

- A Blind Mechanism** Blind mechanism designed with style and functionality in mind.
- B Interior Blinds** Raise Lower & Tilt Mini-Blinds are fitted between the glass. Blinds can easily be adjusted to allow just the right amount of light, so you can enjoy privacy without the cleaning.
- C LowE** All designs feature LowE, reflecting heat back to it's source, maintaining a comfortable environment, protecting against and reducing UV fading of nearby furniture or drapes.

## GARDEN DOOR COLLECTION

*Vinylguard Garden Doors are conveniently available with sliding screens, allowing you to open up your space and bring the fresh outdoor air into your home. These screens can be painted to match your doors, providing a smart and unified look. Today's alternative to sliding patio doors, Vinylguard's Garden Doors are available in 2, 3 and 4 panel systems. Choose from a traditional side swing system or optimize your wall space with a centre swing system.*

## 3-POINT SECURITY AUTOMATIC DOOR LOCK

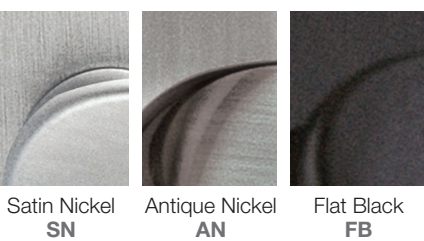

European technology in a North American Lock.

By simply closing the door, the upper and lower 3/4" latches will instantly engage.

Engaging the 1" deadbolt by turning the key from outside or the knob from inside, will block the top and bottom latch bolts, to make it a secure 3-deadbolt locking system!

- Intuitive North American locking function. No lifting of the handle required to engage locking points.
- 90 degree thumb turn to engage 1" central deadbolt function.
- The tapered latch bolts always engage the keepers upon closing of the door.
- Better security with three locking points securing the door.
